Subject: Draft email to Mike Cox

Dear Mike,

Our ad hoc committee for Public Lands Access, representing a coalition of llama organizations and owners, is petitioning the Wild Sheep Working Group to consider the information contained in the accompanying attachments regarding the recurring, unsupported attempts to ban llamas from public lands. We are seeking relief from these ongoing efforts based on a hypothetical disease threat to wild sheep populations. It is our opinion that your committee has the expertise and experience to evaluate the scientific data we offer to disqualify any basis for banning llamas as a disease threat to wild sheep. We look forward to your response. Thank you on behalf of the committee members:

Stan Ebel, Committee Member

Buckhorn Llama Co., Inc.

P.O. Box 64

Masonville, CO 80541
